

COMMONSHIRES

THRIVING STATES OF BEING THAT HAVE RESOLVED COPING STATES OF STRUGGLE

TERRAQUISTA COMMONSHIRE

The Cooperation and Co-Creation (leaderless), Living Stewardship (jobless), and Communal Asset (moneyless) Commonwealth of the NA25 Bioregion

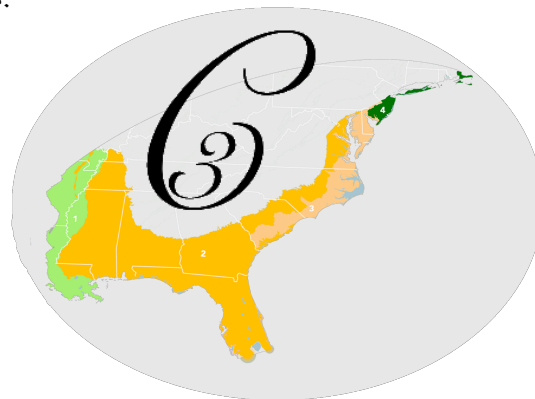

Commonshires are populations organizing to live cohesively and adaptively across differences with all life in Universal Thriving Wellness and Well-being or UTW. Ten Sights Institutes of Social Cohesion (TSiSC) assists populations in becoming commonshires by re-formulating living patterns and systems of functioning that generate disparity and discord, of any kind, to instead demonstrate the cooperative interdependence of bioregional ecosystems and other models of integral living.

Through the Chevil Até Project, TSiSC is mapping these reformulations to interlink them as an interdependent network. Chevil Até's current emphasis is on its ChAPTER Three (C3) mapping of the four ecoregions of the Southeast Savannas and Riparian Forests bioregion of North America (NA25)...where the Terraquista Commonshire is joining Cascadia (NA16 Bioregion), Shasta (NA31 Bioregion) and others in reformulating their patterns of living to ecosystemically cooperate with all life rather than geopolitically compete with any.

Terraquista is incubating the *Terraquista Common Collective* as a league of enterprises operating in UTW formulations of cooperation and co-creation that enables every cohesively distinguishing way of functioning in life, living stewardship for contributing to life in the archetypal distinctions of every soul's nature and spirit, and communal asset resourcing in which living necessities are collectively maintained and regeneratively distributed throughout the population. Terraquista's other initial undertaking is the *T'Quist Agora* as forums for expanding the Terraquista population's consensus on its commonshire configurations.

A COLLECTIVE FOR RE-IMAGINING ENTERPRISE TO PRESERVE AND DEFEND THE COMMON INTEREST AND LIVING SYSTEMS OF ALL LIFE THROUGHOUT THE NA25 BIOREGION

THE CHEVIL ATÉ PROJECT'S CHAPTER THREE MAPPING OF UTW FORMULATED LIVING PATTERNS AND SYSTEMS OF FUNCTIONING FOR THE NA25 BIOREGION

FORUMS FOR RECLAIMING THE TERRAQUISTA POPULATION'S ABILITY, AT THE COMMUNITY LEVEL, TO COLLECTIVELY STEWARD ESSENTIAL LIVING NEEDS AS SOCIAL ENTITLEMENTS INSTEAD OF COMMERCIAL MARKETS
